Founder & Curator of Neroli

# NEROLI

Café - Brunch - Events - Club

*Neroli was born from a scent.*

*The delicate aroma of orange blossom inspired the name and atmosphere behind everything we create.*

*The name comes from Neroli essential oil, extracted from the blossoms of the orange tree and known for its distinctive Mediterranean character. Inspired by Italy, slow brunch mornings and beautiful details, Neroli was created as a space where food, atmosphere and aesthetics come together naturally.*

*Outside, Neroli feels like sun, greenery and citrus gardens.*

*Inside – warmth, texture and a more intimate European atmosphere. Every detail – from the colors and music to the menu and presentation – is carefully selected to create a place that feels aesthetic, relaxed and memorable.*
