Gerry K

Founder & Curator of Neroli

NEROLI

Café - Brunch - Events - Club

Neroli was born from a scent.

The delicate, memorable fragrance of orange blossom inspires our name and the atmosphere behind everything we create.

Our name comes from neroli essential oil, extracted from the blossoms of the orange tree and known in perfumery for its distinctive Mediterranean fragrance.

Inspired by Italy, long summer evenings, leisurely brunches and beautiful details, Neroli was created as a place where flavour, atmosphere and aesthetics come together naturally.

Outside, Neroli evokes sunshine, greenery and citrus gardens. Inside, warmth, textures and a more intimate atmosphere draw inspiration from classic European style.

From the colours and music to the menu and presentation, every detail is thoughtfully chosen to create a sense of calm, beauty and a memorable experience.
